

15 August 2007

Having just read a report in the Evening Gazette regarding the proposed stopping of flights to Heathrow from Teeside, I would like to know what you southerners have against us Northerners as it has also been announced this week that National Express have won the bid for the North - South railway route, this I say is licence to print money on National Expresses part, as they will now hold the monopoly on the public transport route to London with no competition which is what, I thought, your organisation is supposed to stop! Please think long and hard and don't stop us from travelling south unless we use our cars which is against environmental policy!!

Anne Johnson
