## **Heathrow Airport Coach Drop Fees**

Hi,

Please note our objection to these charges.

However, rather than objecting on the basis of the disparity between small and large PCV's, our objection is on the unfairness compared to people being dropped in PCV's and those dropped in cars.

It must be cheaper to the airport authority to have 50 people dropped in 1 coach than 50 people being dropped by numerous cars. It does not cost £21.15 per car, so therefore it should not cost £21.15 per PCV.

Our whole transport system should be encouraging people to use trains, buses and coaches, and discouraging people from using cars.

Regards
